## The Current Status and Issues of Teaching Japanese as a Foreign Language-Japanese Language Teachers and Learners Wandering among “National Language, Foreign Language, and Native Language”

This article describes the history and problems of teaching and learning of Japanese as a foreign language. Specifically, the author addresses the following four questions:

- (1) How has Japanese language teaching been developed to date?
- (2) How does the teaching of Japanese differ from the teaching of foreign languages in Japan?
- (3) What are the common misunderstandings about Japanese language teaching?
- (4) What are the current problems with the teaching of the Japanese language?
