

A Sign of Change: Requests to the MEXT

Yoshiro YAMAZAKI

As stated in last year reports, various requests for multilingual and plurilingual education policy promotion of JACTFL were submitted to the MEXT (Ministry of Education, Culture, Sports, Science and Technology in Japan). Previously, there were only requests regarding French language. However, this time we have received requests related to German, Korean, and Chinese language organizations. As a result, we were able to make a considerable progress on the multilingual and plurilingual education policy of the MEXT.
