

## The second foreign language education in a private elementary school:

### The Spanish class in Koen Girls' Elementary School

Toshihiro MOGI

This paper reports on the practice of the second foreign language education in a private elementary school. The Spanish class in Koen Girls' Elementary School is attended by many students who experience Spanish language and culture. This class will impact the students by encouraging them to experience languages and cultures other than English. This paper is based on a lecture from a sister of our convent. It shows some practices and the characteristics of our Spanish class.
